Timeless Italian Leather, Crafted for Your Vision

Our collections offer a rich palette of colours, grains, and finishes – smooth, textured, hand-worked, or sculptural – designed to support a wide range of creative visions. Each product can be customised in any colour, finish, or design required, allowing complete freedom in shaping unique interiors and bespoke nautical elements.

Our leathers come from carefully selected Italian hides, chosen for their authenticity, natural beauty, and the refined character that only true leather can offer. Through our specialised suppliers, we select the ideal leather for every application ensuring elegance, performance, and long-lasting comfort. For nautical projects, our leathers offer durability, comfort, and long-lasting aesthetic integrity.

Leather is a naturally sustainable material: biodegradable, renewable, and part of a virtuous circular process. As a by-product of the food chain, it is transformed rather than discarded, giving new life to a precious natural resource.

Through combination of origin, craftsmanship, variety, and responsibility, our leathers embody the essence of FABianaMARE: timeless materials selected with care to enhance every project with beauty, integrity, and enduring value.

Caring for your leather products

Leather appreciates gentle care. Keep your pieces away from direct heat and strong sunlight, allowing the material to stay soft, supple, and naturally radiant over time. Avoid contact with solvents, oils, or harsh detergents, as they can disturb its delicate surface. For daily maintenance, simply use a soft cloth lightly moistened with an appropriate leather-care product. More sensitive leathers, may enjoy a little extra attention, rewarding you with their warm, natural beauty for years to come.
